

ABHISHEK NAHIRE

Hyderabad, India | +91 8446163990 | abhisheknahire89@gmail.com | [LinkedIn](#)

SUMMARY

Founder & Product Builder with 3+ years across 0→1 ventures, product management, and cross-functional execution. Currently building India's first multilingual AI clinical documentation platform, processed 371 patient consultations at 91% diagnostic accuracy with live hospital deployment. IIT Hyderabad M.Tech graduate (9.11 CGPA) with hands-on expertise in product strategy, user research, GTM execution, and technical coordination. Recipient of ₹1L iTIC grant. Thrives in ambiguous, high-ownership environments.

Core Competencies: Product Strategy | User Research | Healthcare AI | Go-to-Market | Agile Execution | Cross-Functional Leadership

EXPERIENCE

Aivana Health Intelligence, Founder & CEO

October 2024 – Present | Hyderabad

- Conceptualized and launched India's first multilingual AI clinical documentation platform supporting Hindi, Marathi, Telugu, and code-mixed speech; enabled doctors to save 60-90 minutes daily on documentation
 - Scaled platform to 371 patient consultations across hospital pilots in 3 days, achieving 91% diagnostic accuracy with 100% automation of SOAP notes and prescriptions
 - Secured strategic partnership with Tulip Multispecialty Hospital for live OPD pilot; established pipeline with GBH American Hospital for expanded deployment
 - Executed 100+ user research interviews with doctors, hospital administrators, and patients; synthesized insights to drive 2 strategic pivots that validated product-market fit
 - Designed and shipped 2 core products: **VEDA** (patient-facing health intelligence + clinical decision support) and **Aivana OPD** (ambient documentation with EMR/ABDM integration), targeting 40%+ reduction in insurance claim rejections
 - Defined product roadmap and GTM strategy for ₹6,000 Cr clinical documentation market; designed tiered SaaS pricing model (₹15K-1L/month) and built hospital sales pipeline targeting 5 customers in Year 1
-

Zangoh, Product Manager Intern

May 2024 – July 2024 | Indore

- Spearheaded market research initiative across 200+ users; analyzed behavioral data and synthesized feedback into actionable product insights, driving 15% increase in user engagement
 - Accelerated product development velocity by 20% through streamlined cross-functional collaboration, optimized sprint planning, and reduced stakeholder alignment cycles
 - Authored 3 comprehensive PRDs with defined success metrics (DAU, retention, NPS), enabling engineering team to ship features 2 weeks ahead of schedule
-

Sarvodaya's Manjeera, Strategy Manager Intern

December 2023 – January 2024

- Developed and executed branding transformation strategy; enhanced user engagement by 10% through repositioned messaging and visual identity
 - Delivered data-driven feature optimization recommendations based on user behavior analysis; improved 30-day retention by 7%
-

ONEINART, Research Associate

July 2024 – September 2024

- Conducted in-depth research on Rajasthan's traditional art forms (Phad, Pichwai); authored well-researched articles in collaboration with curators
 - Delivered market positioning insights and cultural trend analysis that informed 3 strategic partnership decisions
-
