FOUNDER – OPERATOR – BUILDER

PROFESSIONAL SUMMARY

Startup operator and two-time founder with 3+ years of experience taking early-stage products from zero to live deployment. Founded India's first multilingual AI clinical documentation platform, building it from concept to enterprise deployment in 11 weeks. At Dyadic Health, joined pre-launch as the founder's first hire and built the company's community, partnerships, and first revenue from scratch. Comfortable across product, growth, research, and operations, with a track record of turning ambiguous problems into shipped outcomes. Published peer-reviewed research on generative AI in venture creation. IIT Hyderabad MTech graduate, 9.11 CGPA.

CORE COMPETENCIES

Venture Building: Zero-to-One Execution | Market Sizing & Validation | Business Case Development | Fundraising

Research & Analysis: Primary Research (150+ interviews) | Competitive Benchmarking | Pricing & Unit Economics | Data-Driven Recommendations

Operations: KPI Dashboard Design | SOP Development | Process Design | Founder/Leadership Support

Tools: Notion | Jira | Google Workspace | Excel | Mixpanel | Figma

WORK EXPERIENCE

Founder's Office Associate, Strategy & Operations

Mar 2025 – Aug 2025

Dyadic Health | Hyderabad

Joined pre-launch as the founder's first hire, taking the product to commercial readiness and building the company's earliest community, partnerships, and revenue.

- Took the product from pre-launch to commercial readiness, defining the core UX flows and user journeys before the app had a single live user
- Built a 200+ member community from zero through webinars and events, establishing the company's earliest user base
- Launched the company's doctor affiliation program, onboarding 10 doctors and 1 diagnostic partner as founding clinical partners
- Ran a pilot at Sagar Hospital & Cancer Care, Karimnagar, that validated the caregiver pain point within patient families and proved out the product's core service
- Generated the company's first INR 10,000 in revenue, marking its earliest commercial traction
- Cut founder time on status reviews by over 80% by building and maintaining weekly KPI dashboards across 5 business metrics
- Built SOPs across 4 business functions that let the founder delegate execution without re-briefing
- Benchmarked 4 competing platforms and turned the findings into leadership-ready recommendations within 48-hour cycles

Founder and CEO

Oct 2024 – Mar 2025

Aivana Health Intelligence | Hyderabad

Founded India's first multilingual AI clinical documentation platform, owning strategy, partnerships, and enterprise rollout from zero to live production.

- Took a clinical documentation product from idea to live enterprise use, reaching 91% accuracy across 371 patient interactions within 3 days of launch
- Ran discovery with hospital CEOs, administrators, and department heads and designed a phased rollout that went from first contact to live deployment in 11 weeks
- Benchmarked 8+ competing healthcare products (Nuance DAX, Suki AI, Augnito, and others) on features, pricing, and positioning to shape strategy for enterprise buyers
- Conducted 100+ interviews with clinicians and hospital leadership, directly informing 2 major product and strategy pivots

- Partnered with the technical team to track post-launch performance and prioritize fixes based on real usage data
- Secured INR 1,00,000 in grant funding and a seat in the DST-funded I-hub Gujarat Sanjeevan Healthcare Cohort
- Published research on how AI can support entrepreneurs during the venture-building process, at ECIE 2025

Co-Founder and COO

Feb 2025 – Aug 2025

GnixarAcademy Pvt. Ltd. | Remote

- Built operating systems and research processes from zero for an early-stage edtech venture
- Owned institutional partner outreach across 30+ targets, from research through communication
